

6TH EDITION

ENDO | DUBAI 2021

A 5 DAYS HYBRID ENDOMETRIOSIS CONGRESS
COMBINED WITH ONLINE AND ONSITE SESSIONS

| Foreword

The current situation of the pandemic obliges us to modify the layout of ENDO-Dubai 2021. The complexity of the sanitary rules put in place make the organisation of an on-site event quasi-impossible. Nevertheless, just to post-pone ENDO-Dubai by one year is not an option that I retained. ENDO-Dubai became the Minimal Invasive Surgery event in the region and lot of people are waiting for it. That is why, ENDO-Dubai will be an hybrid event and will be transformed in an "ENDO Week".

The ENDO Dubai 2020 was a huge success, bringing together over 700 participants for three days of high-quality scientific debate, exchanges and networking. Feedback from delegates was extremely positive; over 85% declare they plan to attend the 2021 edition.

Thanks to the commitment of our experts, we have left a footprint in Dubai and started a new route to educate people and develop access to minimally invasive surgery for all patients. Even with the pandemic, We expect the 2021 edition of ENDO Dubai to attract dedicated participants and we are working to make it an even more impactful and memorable event. The 6th Edition of ENDO Dubai 2021 presents: ENDO Week. A hybrid congress bringing surgical education to the next level. It is a 5-day event combined of Online & Onsite Sessions. Surgical practice is a non-stop learning process and in order to achieve good results, education is key therefore ENDO-Dubai is important!

A portrait of Pr. Arnaud Wattiez, a middle-aged man with short grey hair, wearing a blue polo shirt and a watch on his left wrist. He has his arms crossed and is looking directly at the camera. The background is a light blue and white gradient with abstract shapes.

Pr. Arnaud Wattiez

President of ENDO DUBAI 2021

MIS Academy Founder

| Look and Feel

Welcome to the 6th edition of ENDO Dubai. A 5 days combined onsite and online congress that presents ENDO Week and ENDO Vibes. Endo week is the full online live broadcast of the 1st and 5th day of ENDO Dubai while Endo Vibes is the onsite live broadcast of the 4th and 5th day of ENDO Dubai.

A TV broadcasting concept that will have a 3 interactive online rooms with various sessions such as keynote lecture, Q&A discussions, live surgeries, courses, and workshops or symposiums.

| Introduction

Welcome to ENDO Dubai 2021. A 5 days combined onsite and online congress that presents ENDO Week and ENDO Vibes. Endo week is the full online live broadcast of the 1st and 5th day of ENDO Dubai while Endo Vibes is the onsite live broadcast of the 4th and 5th day of ENDO Dubai. This will be the 6th edition of ENDO Dubai with total of 80+ international speaker that will be focus on the innovation, development, discovery, & modernize techniques that will be held on February 22 till 26 2021.

ENDO Week provides a highly interactive online congress so that we make sure that your online experience will be worth your time. Speaking of time, each day will be only 5 hours a day starting from 5pm till 10pm Dubai time. Each day will have 3 different online interactive rooms with various sessions such as keynote lecture, Q&A discussions, live surgeries, courses, and workshops or symposiums which you can earn up to 45 CME credits depends on your package. Each of these sessions will be parallel in each room and will be an interactive discussion where you can ask questions live from the experts. Inside of each Q&A discussion will have 3 categories which are answering the

questions from the website, answering selected questions from the live chat box and last will be the VIP sessions where experts will be having a live discussion with the selected VIP. These interactive online sessions will be live in the whole 5 days hybrid congress of ENDO Dubai 2021.

From the word hybrid, we make sure that the traditional ENDO Dubai will still be part of this year edition. That is why we made the 4th and 5th day a mix onsite and live which we call ENDO Vibes.

ENDO Vibes will be a physical congress that will be same time with the live sessions which means that what happens onsite will be broadcasted live online. ENDO Vibes has a different approach of various sessions from the online participants and that will be live surgeries, lectures discussions, symposiums, tutorials, and debate. But it does not mean that the online participant will not be part of these sessions, they can still watch these sessions but not interactively. Onsite participants can also have the same benefits of having the ENDO Week and ENDO vibes by choosing the right package.

ENDO Dubai 2021 - Day 1 (Online)

Monday | February 22, 2021 | Starting at 5pm Dubai time (GST+4)

TIME	ONLINE ROOM 1	TIME	ONLINE ROOM 2	TIME	ONLINE ROOM 3
